the whole collections only pass into the State Treasmay, and a large part of that has been paid in advence. Settlements by County Treasurers are not required before the 15th January, and they will, we understand, continue practically to receive all Ohio
Bank notes for taxes as heretofore. The truth of the
excuse given for the specie circular by the Treasurer
is not generally credited here. The sight drafts
of all regular Banks of Ohio have been
daly honored when presented. Will the Treasurer of Ohio give the public the names of the
delinquent banks, and thus justify himself for allow. delinquent banks, and thus justify himself for allow-ing the State to lie under protest, with a half million of deliner in the Treasury! The Branches of the State Bank of Ohio have contributed a fund of one hundred and twenty-five thousand dollars in gold to be held by the Beard of Control to aid any Branch at any time, and from any cause requiring aid. The notes of the Mechanics' & Traders' Branch, at Cincinnati, are redeemed by the Branch at Xenis. The at Cincinnati at from 5 to 10 ? cent discount only, and circulate freely at par in Indiana. The rise in prevails in shipments of produce along the river. From Indiana we hear that the financial move of

enting off the January coupons from the bonds be-leaging to Judge Bowen's bonds, originated with the State Treasurer, who berrowed the coupons from Bowen and sold them, in order to put the Treasury in funds for the prompt payment of the State interest. We also hear, what we can scarcely credit, that while some of the Free Banks are redeeming their notes, through the Auditer, with Virginia and other stocks at par, which are worth 75 to 90 \$\tilde{v}\$ cent., they are buying these same stocks in New-York at the discount noted, and obtaining new circulation on them department are constantly occupied in getting out new notes. It is almost incredible that any State

out, and we think our informant must be mistaken.

His assertions, however, are positive.

The Money market is without important change.

Demand loans are moderately easy for favorite borrowers at 7 \$\phi\$ cent. on convertible securities. Paper ranges from 1 to 3 & cent. per month, very good names going at 11 2 P cent. The supply of paper is fair. Some of the Banks are still contracting, but one or two of the large Banks are lending more freely and may counterbalance the contraction. The coin in bank will probably show half-a-million increase for the week. The street is filled with rumors of bank defalcations, but nothing tangible was made public. We are authorized by the Bank of Commerce to d my in the broadest manner the truth of the charge in The Herald this morning, that there is or has been a defalcation in that Bank.

The letters by the steamer are to about the same sepor as those before received, in relation to Money matters. They centain some orders for American se carities, but the aggregate amount is small. Some small sales are also reported in London and Paris for American account. In relation to the Eric loan the accounts are quite favorable, and the opinion is generally expressed that it will be taken. Some of the correspondents of houses here state their intention to put in bids. Of the three great railroad loans now before the public, we have reason to think the market will be relieved of two before long.

We hear that two or three of the smaller banks in this City are considering the policy of winding up. With the contracted line of discounts now kept up, banking in a small way don't pay expenses.

It is stated that the Stark Bank, at Bennington, Vt., which suspended last Monday, may ultimately redeem its bills, the Directors being held in bonds to the State to insure that result. The bills now sell for fifty cents on the dollar. The current reports are that the bank lost largely in Ohio.

A letter received this morning from Cincinnati states that Col. Mitchell had written from Paris by the Baltic that he had succeeded in negotiating the 2d mortgage bonds of the Ohio and Mississippi Read. The case of Ketchum, Regere & Bement rs The Rank of Commerce, will be carried up, on appeal by

The receipts of the Hulson River Road for Novem ber are about \$135,000, against \$123,000 in Novem

We have received the following card of Mr. Otle P. Jewett, to the stockbolders of the Parker Vein ConCompany, in regard to his connection with the over-

Company, in regard to his connection with the overissued stock of that Company
issued stock of that Company
TO THE SPOURHOLDERS OF THE FARKER VEIN
TO THE SPOURHOLDERS OF THE FARKER VEIN
GUIL COMPANY
GENTS: At your meeting on the evening of the
seth air, the Directors of the Company submitted
for your approval their report of the affairs of the
Company. A part of said report is devoted to matters personal to myself, and as it seems to to me that
matters of fact and the truth, in regard to the past
and present condition of the affairs of the Company
are of importance to the Stockholders at the present
moment, and for the purpose of vindicating myself
from the unjust and unifar inferences and assertions
which pervade the said report, I submit for your consideration
its following statements of facts in regard to the overdrism
Sock, and my accounts with the Company.

Previous to my stock account being evendrawe, I had leaned
the Company a large amount of momen. The Company than
had \$30s 100 invested in stanships, and were getting up an
issue of \$300,00, in \$1,000 composheds, secared by maring age
on the coal cristes still owned by the Company. They were
also arranging to sell the Caledonia extate vaned at \$400,000.
All these assets were at the command of the Company, out of,
or on which, to rake money. It meet accruage engagements;
but all attempts to rake money proved facile. At a moments
notice, it was necessary for met decide client to allow the
Company to fall, or assume individually a grave responsibility
—do a moral wrong. Then I was not the aware of a state of
stock; the assets of the Company would secure to me the
money lound. Still looking to the interest of the stockholders,
and having full confidence that money would soon be obtained
on the Company's securities. I same of the the stockholders,
and having full confidence that money would soon be obtained
on the Company's securities. I same of the theory of the stall which of the
fored are of April, I was (all the time) the owner of the full

A Railroad Convention is in session at Cleveland. Ohio. The delegates are from twenty roads. The objects of the Convention-the entire abolition of the

and freight in like proportion.

The Concinnati Gazette eays:

"The Money market has presented a comparatively quiet appearance during the week, and nothing of special interest transpired in financial circles. It is still difficult to obtain money. In uncurrent money there is an improvement, both as regards prices and demand. Circleville sells at 80c.; Kentucky Trust Company, 40 x50c.; New-York Safety Fund, 20 x50c.; Bank of Kanawha, 80 x50c. The Virginia Stock Banks, with the exception of those located at Wheeling, at 20 x5 cent. discount. Thosis Banks, 10 x50c. discount. The bankable par finads cousist of the Stock, Independent and State Banks of Ohio; State Bank of Indiana, and Kentucky Banks. Eastern Banks are at par, but there is very little of their paper in circulation. The circulation of the Indiana Free Banks having been reduced to three million dollars—and the notes, generally, being current in Indiana, the paper is in better demand here, and sales have been made at 30 x 35, and if the Banks or Bankers would receive it, there would be no difficulty in passing it in trade at par. The notes of the Clinton Bank of Columbus are taken in small amounts at par. It is to be hoped that we are near the end of our currency difficulties, but a final and satisfactory settlement can only be looked for when the doubtful and illegitimate Banks shall have been driven from the field. In St. Louis and Illinois the merchants and hankers sustain the Illinois Banks, and throughout both States the paper is bankable. In Indiana the notes of the Free Banks are taken for produce; but, with some exceptions, they will not purchase gold or Eastern exchange. The Stock Banks of Virginia are also in bad credit and do not pass here, although they are current at home.

The Chicago Democrat of the 27th says:

"There was some starting rumors circulated on

The Chicago Democrat of the 27th says The Checago Democrat of the 27th says:

"There was some starting rumors circulated on Saturday about a large house in New-York discrediting one of our banks when the bank had fands with it, and also about its hypothecating the bonds belonging to snother bank and to one of our railroads for its own debts. The matter has been kept quiet for some days, but is now leaking out. Several of our citizens have been to New-York, and an officer in one of our banks and a director in one of our railroads is now said to be East attending to the matter."

The Eleminaton Railroad has been completed to

The Flemington Railroad has been completed to Lambertville, where it connects with the Belvidere Delaware Railroad. It will open for business on

ASHES—The market is without variation; the demand fair; sales of 50 bbls. #6 37] @#6 50 for Pearls, and Pots at #6 73. Saleratus is firm at 6c., cash.

COTYON—Our market is dull and heavy for this staple at the sunered questions from last market.
